Dear Client,

**Currency Surcharge: International Services, excluding Botswana, Lesotho, Namibia and Swaziland (BLNS States)**

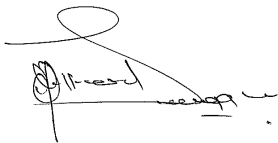

A few years ago UTi Sun Couriers, along with many of our competitors, introduced a currency surcharge because of the volatility of the Rand against the major foreign currencies.

This surcharge has remained part of our pricing model, but contrary to industry practice, has been zero rated for some time. Regrettably, the last few months have seen a dramatic decline of the Rand (ZAR) against the other currencies, particularly the British Pound (GBP). Consequently we have had to review our policy.

Effective 7 May 2008, a revised Currency Surcharge will therefore be applicable to all goods moving beyond the BLNS states into Africa and other intercontinental destinations. The surcharge is calculated at 25% of the fluctuation of the ZAR against the GBP, using a base rate of GBP1.00 = ZAR12.50. For demonstrative purposes if UTi Sun Couriers had applied the currency surcharge during April 2008, it would have equated to 7%. The surcharge is applied per invoice levied on all freight charges excluding fuel and insurance. The surcharge will be reviewed on the first Wednesday of each month, aligned to our Fuel Surcharge policy.

For more information on the surcharge and the basis of calculation, call our National Contact Centre on 0861 80 30 80 or call our International Divisions in Centurion, Durban and Cape Town.

Yours sincerely

Shaun ter Bruggen  
Divisional Director: International
