**Update on Cosatu Strike – Impact on Operations**

Thousands of Cosatu members are participating in a nationwide strike today, with the impact being felt in all provinces. Commuters were left stranded, and essential services have ground to a near halt.

UTi Sun Couriers has also been affected by the action, and this will unfortunately impact our service levels and ability to deliver. The Western and Eastern Cape, Limpopo and Northern Province have been the most severely affected. In addition, we will not be doing any collections or deliveries into townships, or the Johannesburg and Pretoria Central Business Districts.

We have made every effort to mitigate the disruption to operations, but ask for your understanding during this time.

Yours sincerely

Keith Pienaar  
Managing Director  
UTi Distribution
